JANUARY 2026

PRESIDENT'S CORNER Caroline D'Antonio

Happy New Year—and welcome to 2026!

Dear Members,

This year is especially meaningful as we celebrate the 250th anniversary of the United States, a wonderful reminder of community, service, and shared history.

Our January meeting will be full of creativity and fun. Members will be exhibiting their arts and crafts for judging, with winning entries advancing to the District 8 meeting in February. Our speaker will be club member, Maria Hodge, who will demonstrate how to make an appealing chharcuterie board.

The Health and Wellness Committee will be collecting Christmas cards to be repurposed and sent to service members overseas—such a thoughtful way to spread cheer beyond the holidays.

A big, heartfelt thank you to Diane Alty, our volunteer for the month. Diane's incredible talent shone through in the many hours devloted to creating the beautiful gingerbread house for the Community Association Christmas Project. Those who attended our December meeting were fortunate to see it firsthand—complete with lights! It was truly a labor of love and a special gift to our community.

Please note that our January Birthday Lunch will be held on January 8 at the Sunset Grill. In honor of Elvis Presley's 90th birthday, we've been asked to wear pink—so have fun with it!

Diane Alty, Volunteer of the Month,
with Caroline D'Antonio, President

We were also deeply honored this December to receive a very generous \$5,000 gift from the Community Foundation Tampa Bay, recognizing the important work our club does in Sun City Center and the surrounding community.

Another big thank-you goes to Shawna Wainright, our Fundraising Chair, and her dedicated committee. Thanks to their hard work this past year and additional donations, our club was able to award 18 grants in May, helping so many individuals and organizations in need.

As 2025 comes to a close and 2026 begins, I want to thank each of you for your time, talent, and service. Our GFWC Sun City Center Woman's Club is truly a service club, and it is a blessing to know and work alongside such caring, generous members.

Here's to a new year filled with good health, fun times, and grateful hearts.

Warmly,
Caroline D'Antonio

MEETING RECAP- DECEMBER 2025

December's general meeting featured an engaging and entertaining presentation by Lee Stevens, director of the Carnival World Museum in the Gibsonton/Riverview area.

Mr. Stevens shared stories from his lifelong connection to the carnival world, offering members a fascinating glimpse into an industry rich with history, tradition, and larger-than-life personalities. He spoke candidly about growing up immersed in carnival life, the lessons learned along the way, and how those experiences eventually led him to his role preserving carnival history through the museum.

He also touched on his connection to Sun City Center, weaving personal anecdotes with humor and insight that kept the audience fully engaged. His enthusiasm for the subject—and his obvious affection for the people and stories behind the spectacle—made the presentation both informative and highly entertaining.

Members thoroughly enjoyed Mr. Stevens' lively storytelling and unique perspective, and his talk was a wonderful way to round out our December meeting.

Lee Stevens is widely respected within the circus and carnival community as a longtime showman, historian, and preservationist of American carnival culture. He spent many years touring with traveling shows, including animal acts, gaining firsthand experience of life on the road and the traditions that defined classic carnivals and circuses. Mr. Stevens held leadership roles in the industry, working to preserve the history and legacy, and supports local projects within the community. Presently, he serves as director of the Carnival World Museum, located at 6938 Riverview Dr.

Director at Large Virginia Kimball

Hello Ladies,

Happy New Year! Can you believe it?! It's 2026! Did you make a New Year's Resolution? You know, the same one you made last year and broke.

For 2026 the Sun City Center Womens Club is looking forward to many great programs, service projects, a spring and fall fundraiser, and recruiting new members to join in on the fun and volunteering to help in the community.

I encourage you to invite a friend to come with you to one of our general meetings, luncheons, bunco, birthday lunches, and committee meetings such as Arts and Culture activities or Environmental.

We work with the Hope Fund and Inspira by mentoring, reading, and tutoring children. We help C.A.H.T. by making pillows, blankets, and collecting items for their backpacks. We started Meals on Wheels for Sun City Center 54 years ago and are still lining up churches and organizations to make deliveries every day of the year.

If you have any questions feel free to ask your Board members.
May 2026 be a Happy year for all and peace on earth.

Yours truly,
Virginia Kimball Director-at-Large.

1000 PAIRS OF SOCKS TO WIMAUMA ELEMENTARY

We delivered approximately 1,000 pairs of Bomba socks to the Wimauma Elementary School and The Lord's Lighthouse. Some were also donated to the Disabled American Veterans. Thanks to Kiwanis for donating the socks to us that they received from Bomba. Also a BIG thanks to Patsie Ginley for arranging for the donation from Kiwanis! Saved us having to buy socks and freed up our charity giving for other projects.

Most of us are not fond of spiders but they help to balance our ecosystem. In addition, spiders benefit our wildlife by creating a complex food chain. For one thing spiders help control insect populations. For example, the Garden ORB Weavers are spiders known for being skilled at producing webs that will keep certain insect populations from getting too high. These non-aggressive spiders can be found in your garden. Then there is the Spiney-backed Orb Weaver that keeps mosquito populations down by catching them in their webs. A bite from the spider is not known to cause serious harm to humans. The Golden Silk Orb Weaver also controls insect populations. This is one of the largest spiders in the U.S. that creates a beautiful golden web.

In addition, spiders benefit our wildlife by creating a complex food chain. They are preyed upon by birds, lizards, frogs, and even larger insects. This is how they are an important connector to the food chain. Energy and nutrients are transferred between different levels.

What would happen If all spiders were to disappear? Insect populations would flourish which would cause damage to our crops, forests, and human health. Without spiders as a food source, the animal population would decline. The overall stability and diversity of ecosystems would be compromised.

How can we help? Avoid using pesticides. Leave some areas in your garden undisturbed so spiders have a place to build their webs and can hide.

Thanks to the many club members who have volunteered to deliver meals in Sun City Center and Kings Point in December. Things are going very smoothly and every time that I personally deliver meals, I am struck by the fact that dedicated volunteers collect meals from the hospital and deliver them to our neighbors 365 days a year. What a great community we live in!

As you know, a different club, church or organization coordinates meal delivery each month. **Thanks to St. John the Divine Church, who delivered 524 meals in November.**

Temple Beth Israel has all of their volunteers set for January and Daughters of American Revolution will be delivering in February.

Fun Facts About Meals on Wheels

- It's been around since the 1950s. The program began in the U.K. after World War II and quickly spread to the U.S., where it's now a nationwide lifeline for seniors.
- More than a meal. For many seniors, the delivery volunteer may be the only person they see that day—making Meals on Wheels just as much about connection as nutrition.
- Millions served—daily. Across the U.S., Meals on Wheels programs deliver over 2 million meals every day to seniors in need.
- Safety check included. That friendly knock doubles as a wellness check. Volunteers are often the first to notice if something's wrong and can alert help.
- Local menus, local love. Meals are tailored to local tastes and dietary needs—low sodium, diabetic-friendly, heart-healthy, and culturally familiar.
- It saves money and lives. Studies show Meals on Wheels helps seniors stay healthier at home longer, reducing hospital visits and nursing home placements.
- Rain, shine... and hurricanes. Many programs deliver before storms so seniors won't go hungry during emergencies.
